WATER, AIR AND SOIL POLLUTION / *Volume 96 Nos. 1–4 May 1997*

B.J. WILKENS and J.P.G. LOCH / Accumulation of cadmium and zinc from diffuse immission on acid sandy soils, as a function of soil composition 1–16

L.A. HALSEY, D.H. VITT and D.O. TREW / Influence of peatlands on the acidity of lakes in northeastern Alberta, Canada 17–38

R.B. HERBERT JR. / Partitioning of heavy metals in podzol soils contaminated by mine drainage waters, Dalarna, Sweden 39–59

W. MIKUŁA and L. INDEKA / Heavy metals in allotment gardens close to an oil refinery in Płock 61–71

I.J. BEVERLAND, J.M. CROWTHER and M.S.N. SRINIVAS / Episodic nature of wet deposition of acidic material at a site in south-east England 73–91

I.J. BEVERLAND, J.M. CROWTHER and M.S.N. SRINIVAS / Acid deposition during two contrasting frontal rainfall events 93–106

M. VAN DER PERK and P.F.M. VAN GAANS / Variation in composition of stream bed sediments in a small watercourse 107–131

P. GONG, T.-H. SUN, G. BEUDERT and H.H. HAHN / Ecological effects of combined organic or inorganic pollution on soil microbial activities 133–143

S. MORENO-GRAU, A. PÉREZ-TORNELL, J. BAYO, J. SERRANO-ANIORTE, J. MORENO-GRAU and J. MORENO-CLAVEL / Determination of lead in aerosol samples collected on glass fiber filters by an improved atomic absorption spectrometry method 145–153

L. BENDELL-YOUNG and F.R. PICK / Base cation composition of pore water, peat and pool water of fifteen Ontario peatlands: implications for peatland acidification 155–173

Z.P. SUN, Y. LEVI, L. KIENE, N. DUMOUTIER and F. LUCENA / Quantification of bacteriophages of *bacteroides fragilis* in environmental water samples of Seine river 175–183

R. HUIZAR-ALVAREZ / Hydrochemistry of the aquifers in the Rio las Avenidas basin, Pachuca, Hidalgo, Mexico 185–202

M.S. GALINA / The difference in brown trout (*Salmo trutta* L.) blood composition from acidic and limed sites of two rivers in western Norway 203–210

M.D. MATTSON, P.J. GODFREY, M.-F. WALK, P.A. KERR and O. THOMAS ZAJICEK / Evidence of recovery from acidification in Massachusetts streams 211–232

J.E. MILLER, S.R. SHAFER, M.M. SCHOENEBERGER, W.A. PURSLEY, S.J. HORTON and C.B. DAVEY / Influence of a mycorrhizal fungus and/or rhizobium on growth and biomass partitioning of subterranean clover exposed to ozone 233–248

M. CHARTIER and D. COUILLARD / Biological processes: the effects of initial pH, percentage inoculum and nutrient enrichment on the solubilization of sediment bound metals 249–267

K. ULFIG, W. ŁUKASIK, J. GUARRO, J. CANO, J. GENÉ, P. VIDAL and M.J. FIGUERAS / The seasonal changes of keratinolytic fungi in sediments of Catalonian rivers (Spain) 269–290

W.Z. KHAN and B.M. GIBBS / Zero test emissions of sulphur dioxide from large coal under staged fluidized bed combustion 291–300

K. SCHLÜTER and S. GÄTH / Modelling leaching of inorganic Hg(II) in a Scandinavian iron-humus podzol-validation and long-term leaching under various deposition rates 301–320

H.K. MOHAMED, S. PATHAK, D.N. ROY, T.C. HUTCHINSON, D.L. McLAUGHLIN and J.C. KINCH / Relationship between sugar maple decline and corresponding chemical changes in the stem tissue 321–327

B. MAŇKOVSKÁ / Variations in sulphur and nitrogen foliar concentration of deciduous and conifers vegetation in Slovakia 329–345

S. SEOANE and M.C. LEIROS / Weathering processes under various moisture conditions in a lignite mine spoil from As Pontes (n.w. Spain) 347–366

Erratum 367
Corrigendum 369

Announcement 371

Instructions for authors 373–374

Founded in 1971, with an international editorial board of 25 scientists and 7 Associate Editors, *Water, Air, and Soil Pollution* is an interdisciplinary journal for all the physical and biological processes affecting our flora, air, water, and solid earth in relation to environmental pollution. Because of its wide scope, the topics are diverse and include all aspects of sources, transport, deposition, accumulation, disposition, and mitigation of acid precipitation, atmospheric pollution, heavy metals, water pollution, waste water, wastes, pesticides, soil pollution, sewage sediments, etc.; effects of pollutants on human beings, vegetation, fish, aquatic species, microorganisms, animals, etc.; ecological implications of pollution; and pollution models.

Photocopying. *In the U.S.A.*: This journal is registered at the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923.

Authorization to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by Kluwer Academic Publishers for users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the fee of USD 9.50 per copy is paid directly to CCC. For those organizations that have been granted a photocopy licence by CCC, a separate system of payment has been arranged. The fee code for users of the Transactional Reporting Service is 0049–6979/97 USD 9.50.
Authorization does not extend to other kinds of copying, such as that for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale.
In the rest of the world: Permission to photocopy must be obtained from the copyright owner. Please apply to Dordrecht office.

Water, Air, and Soil Pollution is published monthly.
Subscription price (1997): USD 2500.00 including postage and handling.
Periodicals postage paid at Rahway, N.J. USPS No. 913–880.
U.S. Mailing Agent: Mercury Airfreight International Ltd., 2323 Randolph Ave., Avenel, NJ 07001.
Published by Kluwer Academic Publishers, Spuiboulevard 50, P.O. Box 17, 3300 AA Dordrecht, The Netherlands, and 101 Philip Drive, Norwell, MA 02061, U.S.A.
Postmaster: Please send all address corrections to: *Water, Air, and Soil Pollution*, c/o Mercury Airfreight International Ltd., 2323 Randolph Ave., Avenel, NJ 07001, U.S.A.
